Tool 1

LlamaIndex
QuestionGeneration: Generating a list of questions:
https://docs.llamaindex.ai/en/stable/examples/evaluation/QuestionGeneration/

Tool 2

Ragas
Generate a Synthetic data Set by RAG pipeline:
https://docs.ragas.io/en/latest/getstarted/testset_generation.html

Tool 3

DeepEval:
https://www.confident-ai.com/blog/the-definitive-guide-to-synthetic-data-generation-using-llms
Github Link: https://github.com/confident-ai/deepeval

Tool 4

CrewAI: Synthetic Data Generation with crewAI Agents for Model Fine-Tuning:
Link:
https://medium.com/@gryant/synthetic-data-generation-with-crewai-agents-for-model-fine-tuning-dcf27251d903

Tool 5

Genstruct-7B Model: Synthetic instruction fine tuning datasets from raw text using
Genstruct-7B Model.
Link:
https://lightning.ai/lightning-ai/studios/generate-synthetic-instruction-dataset-to-finetune-llms
